

MCPCCI 1st Specialty GSD Show 18th February 2018

Judge: Mr Vincenzo Tantaro (Australia)

Introduction.

It was indeed a pleasure to be invited back to the Philippines and asked to judge the 1st Specialty GSD Show as conducted by the PCCI. I was most pleased with the entry and the fact there were few scratching's on the day made my task most enjoyable!

The quality of animals was very good with very good character and many with very good construction. Many exhibits displayed true GSD expression with desired dark masking and eye colour. I was also impressed with strength of heads, in particular the under jaws and the very good fore and under chest of many exhibits. Size was large to very large and like elsewhere in the world must be noted as a real problem by all breeders and not ignored: after all the functionality and utility of our breed is dependent on the size limits as set in the breed standard! Other areas of concern, again like elsewhere in the world saw croups were in the main short and steep as was the length of the upper arm which should be longer and better angled. I would caution exhibitors with regard to how heavy they keep some of the exhibits especially in the younger classes- the more weight puppies carry the more stress is placed on all their joints!

It was also pleasing to see sports like behaviour displayed by the exhibitors and handlers, and this of course made the show more enjoyable for everyone. In closing, I would like to thank members of the PCCI organising show committee for their kind consideration and hospitality as extended to my wife, Frances and I during our stay in your lovely country.

I wish all the GSD exhibitors the very best with their breeding programs and exhibiting their dogs at future GSD speciality shows as conducted by the PCCI.

Kindest Regards

Vince Tantaro
