Section 2. The Philippine bred dog is a dog whelped in the Philippines by reason of a mating, which took place in the Philippines.

Section 4. Litter whelped in the Philippines (both Sire and Dam are PCCI Registered):

No individual dog from a litter whelped in the Philippines of which both parents are registered with the Philippine Canine Club, Inc. shall be eligible for registration unless the litter has first been registered by the person who owned the dam at the time of whelping. Further that an application to register such litter is filed with the Philippine Canine

Club, Inc. no later than six (6) months from the date of whelping of the litter. The owner of a litter eligible for registration shall first register a PCCI kennel affix acceptable to the Philippine Canine Club, Inc. and FCI Kennel Name approved by the FCI before the litter can be registered. - i. That member or those members refusing without cause to sign the application form or forms necessary for the registration of a litter of purebred dogs or of a single purebred dog or to sign the transfer of ownership application of a single purebred dog necessary for the recording of the transfer or change of ownership of said single purebred dog, and that member or those members refusing without cause to pay the necessary fees due from him, her or them to be paid in order to complete the chain of title to a purebred litter or a purebred single dog sought to be registered or to record the transfer or change of ownership of a single purebred dog, when requested by the Philippine Canine Club, Inc. may be suspended from the privileges of the Philippine Canine Club, Inc., or fined as the Board of Directors of the Philippine Canine Club, Inc., or denied privileges of the Philippine Canine Club, Inc.
